

SREEVALLI SARVASUDDI

Software Engineering | Full-Stack Development | AI/ML | Competitive Programming

sreevallisarvasuddi@gmail.com | linkedin.com/in/sreevalli-sarvasuddi | github.com/sarvasuddisreevalli

LeetCode: leetcode.com/u/Valli_2146 | CodeChef: codechef.com/users/sreevalli02 | Codeforces: codeforces.com/profile/sreevalli02

PROFESSIONAL SUMMARY

Computer Science and Engineering undergraduate with hands-on experience building full-stack and AI-enabled applications using React, TypeScript, JavaScript, Node.js, Python/FastAPI, MongoDB and REST APIs. Strong foundation in data structures and algorithms, competitive programming and core CS subjects, with project experience in RAG, OCR, vector search, online code evaluation and authentication workflows.

TECHNICAL SKILLS

Programming Languages: C++, C, Java, Python, SQL, JavaScript, TypeScript

Frontend: HTML, CSS, JavaScript, React

Backend & APIs: Node.js, Express.js, FastAPI, REST APIs, authentication

Databases: MySQL, MongoDB

AI/ML & Applied AI: Exploratory Data Analysis, supervised learning, unsupervised learning, RAG, OCR, vector search

Core Computer Science: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Design & Analysis of Algorithms

EXPERIENCE

Full-Stack Intern — Technical Hub | May 2026 – Jun 2026

- Developed TrustHire AI, a full-stack platform for AI-powered job verification, resume analysis, certificate verification and recruiter trust scoring, integrating frontend, backend APIs and database workflows.

PROJECTS

SS SPARK — AI Question Paper Analyzer | React, TypeScript, Python, FastAPI, MongoDB, RAG

- Built an AI-powered document analysis platform with retrieval-augmented generation (RAG), OCR, vector search and chatbot capabilities.
- Implemented REST APIs, authentication and document-processing workflows for intelligent question-paper analysis.

FIRE_CODE — Online Coding Judge | React, Node.js, Express.js, MongoDB, Judge0

- Developed a LeetCode-style coding platform with problem management, code submission and automated evaluation workflows.
- Integrated Judge0 and REST APIs to execute code and process submissions.

FDS — Food Delivery Application | React, Node.js, Express.js, MongoDB

- Developed a full-stack food delivery application for browsing food items and placing orders.
- Implemented core food-ordering and user-interaction workflows across the application.

ACHIEVEMENTS & COMPETITIVE PROGRAMMING

- LeetCode: 1700+ rating and 1500+ problems solved.
- CodeChef: 2-Star coder, maximum rating 1490 and 700+ problems solved.
- HackerRank: 5-Star in Problem Solving and SQL; Codeforces: Newbie; GeeksforGeeks: 100+ problems solved.
- Secured 1st place in CodeReto Competition organized by Aditya University (2025); ranked in the campus top 0.1% for problem-solving and coding performance.
- Smart India Hackathon 2025: shortlisted among 40 teams from 180+ teams at the college level; participated in Google Hackathon in collaboration with GeeksforGeeks (2025).

EDUCATION

Aditya University, Surampalem | B.Tech in Computer Science and Engineering | 2024–2028 | CGPA: 8.99

Prathibha Junior College, Rajahmundry | Senior Secondary (Class XII), MPC | 2022–2024 | CGPA: 9.69
